Re: Required Submission of Information  
Lower Darby Creek Area Superfund Site – Clearview Landfill, Folcroft Landfill, and  
Folcroft Landfill Annex

Dear Ms. Prisk:

Please find enclosed our response to the Required Submission of Information dated October 5, 2001 addressed to Mr. John Sweetwood, President, The Americas, Holiday Inn, c/o Six Continents Hotels.

We sincerely appreciate your courtesy in granting us extensions of time in order to research and compile our response.

Very truly yours,

David A. Hom  
Associate General Counsel  
Company-Managed Hotel Operations - Americas

**RESPONSE OF - SIX CONTINENTS HOTELS, INC. AND HOLIDAY  
HOSPITALITY FRANCHISING, INC. TO REQUIRED SUBMISSION OF  
INFORMATION – LOWER DARBY CREEK AREA SUPERFUND SITE  
– CLEARVIEW LANDFILL, FOLCROFT LANDFILL, AND  
FOLCROFT LANDFILL ANNEX (THE “SITE”)**

Initially, please note that this request is directed to “Holiday Inn c/o Six Continents Hotels” in the Required Submission of Information dated October 5, 2001 issued by the United States Environmental Protection Agency, Region III (the “EPA”). Six Continents Hotels, Inc. (formerly Bass Hotels & Resorts, Inc.), through an affiliated limited partnership, Bristol Management, L.P., currently manages two hotels in the Philadelphia, Pennsylvania area (the “Area”)--the Crowne Plaza Philadelphia – Center City located at 1800 Market Street (formerly the Holiday Inn Philadelphia – Center City) (the “Center City Hotel”) and the Holiday Inn Philadelphia-Independence Mall (the “Independence Mall Hotel”) located at 400 Arch Street, Philadelphia, PA 19106 (together, “the Hotels”). An affiliate, Holiday Hospitality Franchising, Inc., is a franchisor of hotels – it does not own, operate, or manage **any** hotels in the Area. Rather, it provides franchises to entities and/or individuals for the establishment and operation of Holiday Inn®, Holiday Inn Express® or Crowne Plaza® brand group hotels. While your request appears to be primarily directed to the Center City Hotel, in the spirit of cooperation with the EPA, and in an effort to avoid confusion and/or duplication of effort, Six Continents Hotels, Inc. (“SCH”) has joined with Holiday Hospitality Franchising, Inc. (“HHFI”) to provide the information requested.

Six Continents Hotels, Inc.’s and Holiday Hospitality Franchising, Inc.’s operations can be broken into three distinct categories:

- (1) owning and operating certain properties;
- (2) managing certain properties (*i.e.*, the properties are owned by another individual and/or entity); and,
- (3) acting as a franchisor for certain properties where the property is owned, operated, and/or managed by another individual or entity.

In the Area, as noted above, SCH manages through an affiliate two hotels, the Center City Hotel and the Independence Mall Hotel, which are owned by a third party. HHFI has franchising agreements with 13 properties in the Area.

While Six Continents Hotels, Inc. can provide certain information regarding the handling and/or generation, storage, treatment, recycling, formulation, disposal, or transportation of any hazardous substance, hazardous waste, pollutant, contaminant, or other waste of the hotels that it owns and operates, it can provide less substantive

information regarding such matters for the hotels that it manages for third-party owners. More importantly, due to the nature of the franchisor/franchisee relationship, Six Continents Hotels, Inc. and/or Holiday Hospitality Franchising, Inc. can provide little, if any, detail or information regarding these matters for the franchisee hotels. This reality will be continuously noted in response to certain requests. Substantive information regarding the franchised hotels may be gained by contacting the owners and/or operators of those hotels directly.

It should also be noted that since the EPA's requests focus on the 1958-1976 time period, little information has been located, mainly the result of (a) the document retention policies of SCH and HHFI described below, and (b) the changes in ownership and management of the Hotels over the years.

## **RESPONSE NO. 1 – CORPORATE INFORMATION**

### **(a) Dates and states of incorporation:**

SCH was incorporated on January 31, 1997 under the name Holiday Hospitality Corporation in the State of Delaware.

HHFI was incorporated on November 3, 1989 under the name Holiday Inns Franchising, Inc. in the State of Delaware.

Bristol Management, L.P. was formed on July 2, 1998 in the State of Texas.

### **(b) Dates and original states of incorporation – see response to Question 1(a)**

### **(c) Parent company information:**

SCH is a 100% owned subsidiary of Six Continents Hotels Operating Corporation, a Delaware corporation whose ultimate parent is Six Continents P.L.C., a company formed in the United Kingdom (“SC-PLC”). The business of SC-PLC comprises hotels, leisure retailing (ownership and management of pubs, restaurants, bowling centers and leisure venues mainly in Europe), and branded drinks (through the production and distribution of soft drinks). This business is conducted in almost 100 countries through hundreds of subsidiaries and affiliated entities, information on which has been omitted from this Response as not materially relevant to the EPA’s questions regarding the Area and the Hotels.

## **RESPONSE NO. 2 – NATURE OF BUSINESS OR ACTIVITY IN THE AREA FROM 1958-1976 AND CURRENTLY**

In the Area, as noted above, SCH currently manages through an affiliate two hotels, the Center City Hotel and the Independence Mall Hotel, both of which are owned by a third party. HHFI has franchising agreements with 13 properties in the Area. The current business of activity of SCH, HHFI and its affiliates in the Area is to franchise hotels, although opportunities to manage and/or own hotels are also pursued.

Upon information and belief, during a significant portion of the 1958-1976 period, the predecessors of SCH and HHFI engaged in a greater variety of hospitality-related businesses, although it is not clear how many of these business activities were conducted in the Area. Enclosed are excerpts (Item 1 – Business) from the Form 10-Ks filed by Holiday Inns, Inc. for the 1974 and 1977 fiscal years which describe these various business activities. **(Enclosure 1)**

With respect to the Center City Hotel, SCH and HHFI respond as follows:

It appears that the Center City Hotel first opened for business in the summer of 1971. Enclosed is a copy of a Statement of Occupancy dated June 1, 1971 issued by the Philadelphia Department of Licenses and Inspections. Upon information and belief, the

Center City Hotel was managed by predecessors of SCH or its affiliates from the mid-1980s until April 28, 1997. From that date until April 4, 2000 the Center City Hotel was a franchised property, owned and managed by third parties. From April 4, 2000 the Center City Hotel again has been managed by an affiliate of SCH. **(Enclosure 2).**

With respect to the Independence Mall Hotel, SCH and HHFI respond as follows:

It appears that the Independence Mall Hotel first opened for business in early 1972. Enclosed is a copy of a Statement of Occupancy dated January 13, 1972 issued by the Philadelphia Department of Licenses and Inspections. **(Enclosure 2-A)** According to an October 20, 1997 report prepared in connection with the transfer of this hotel, hotel personnel indicated that prior to the Independence Mall Hotel being constructed, businesses on the property site included a restaurant and a retail shoe shop. According to our information, the Independence Mall Hotel was owned and operated from 1972 until December 4, 1997 by 4<sup>th</sup> & Arch Sts. Corp., an affiliate of Allen & O'Hara, Inc., 3385 Airways Boulevard, Memphis, TN 38130, and was a franchised property from the time it opened until April 4, 2000. Since April 4, 2000 the Independence Mall Hotel has been managed by an affiliate of SCH.

**RESPONSE NO. 3 – PERSONS WITH KNOWLEDGE OF OPERATIONS AND WASTE DISPOSAL PRACTICES IN THE AREA BETWEEN 1958-1976**

See Response No. 4 below.

**RESPONSE NO. 4 – IDENTIFY OWNERS AND OPERATORS OF YOUR ESTABLISHMENTS IN THE AREA BETWEEN 1958-1976**

Enclosed herewith are excerpts from Holiday Inn hotel directories for the 1958-1976 period listing hotels in the Area. Based on these excerpts, SCH and HHFI respond as follows:

The first Holiday Inn hotel in the Area appears to have opened in 1963 in Gloucester City, NJ. By 1976 there were 16 Holiday Inn hotels in the Area. The Center City Hotel and the Independence Mall Hotel first appear in the directory for the period October 1, 1971 – January 31, 1972 which is consistent with the information in Response No. 2 above. The excerpts provide for each hotel (a) the address and telephone number, and (b) the name of the innkeeper, which, upon information and belief is the hotel general manager (operator) who may have also been the licensee or franchisee, or owner. **(Enclosure 3)**

In response to the request for present or current information regarding owners and operators of establishments in the Area, enclosed is an excerpt from the current (February 2002 ) SCH hotel directory listing hotels in the Area. Also enclosed are names and contact information for each of these hotels concerning each hotel's principal correspondent (usually the owner or licensee) and hotel general manager. **(Enclosure 4)**

Upon information and belief, SCH and HHFI have been unable to locate information or documents relating to the handling and/or generation, storage, treatment, recycling, formulation, disposal, or transportation of any hazardous substance, hazardous waste, pollutant, contaminant, or other waste at these hotels during this period. SCH and HHFI would not have any such information or documents for franchised hotels as such hotels are owned and operated by third parties and the employees of franchised hotels are employed by third parties.

**RESPONSE NO. 5 – DESCRIBE TYPES OF DOCUMENTS GENERATED OR MAINTAINED CONCERNING WASTE BY YOUR ESTABLISHMENTS IN THE AREA BETWEEN 1958-1976**

For the reasons set forth in the last paragraph of Response No. 4, SCH and HHFI are unable to respond. The owner or operator of each franchised hotel should be contacted to determine if they have responsive information.

**RESPONSE NO. 6 – IDENTIFY EVERY HAZARDOUS SUBSTANCE USED, GENERATED, PURCHASED, STORED OR HANDLED AT YOUR ESTABLISHMENTS IN THE AREA BETWEEN 1958-1976**

For the reasons set forth in the last paragraph of Response No. 4, SCH and HHFI are unable to respond. The owner or operator of each franchised hotel should be contacted to determine if they have responsive information.

**RESPONSE NO. 7 – IDENTIFY ALL BY-PRODUCTS AND WASTES GENERATED, STORED, TRANSPORTED, TREATED, DISPOSED OF, RELEASED OR OTHERWISE HANDLED BY YOUR ESTABLISHMENTS IN THE AREA BETWEEN 1958-1976**

For the reasons set forth in the last paragraph of Response No. 4, SCH and HHFI are unable to respond. The owner or operator of each franchised hotel should be contacted to determine if they have responsive information.

**RESPONSE NO. 8 – DID YOUR COMPANY EVER CONTRACT WITH, OR MAKE ARRANGEMENTS WITH CERTAIN NAMED COMPANIES OR INDIVIDUALS OR ANY OTHER COMPANY OR MUNICIPALITY TO REMOVE OR TRANSPORT MATERIAL FROM YOUR ESTABLISHMENTS IN THE AREA BETWEEN 1958-1976?**

For the reasons set forth in the last paragraph of Response No. 4, SCH and HHFI are unable to respond. The Hotels have been unable to locate information or documents responsive to this Question. The owner or operator of each franchised hotel should be contacted to determine if they have responsive information.

**RESPONSE NO. 9 – PROVIDE PERSONAL CONTACT INFORMATION FOR ALL PERSONS WHO MAY HAVE DISPOSED OF OR TREATED MATERIALS AT THE SITE, ARRANGED FOR THE DISPOSAL OR TREATMENT OF MATERIALS AT THE SITE, OR ARRANGED FOR THE TRANSPORTATION OF MATERIALS TO THE SITE BETWEEN 1958-1976**

The Hotels have been unable to locate information or documents responsive to this Question. The owner or operator of each franchised hotel should be contacted to determine if they have responsive information.

**RESPONSE NO. 10 – PROVIDE SPECIFIC INFORMATION FOR EACH INSTANCE IN WHICH YOUR ESTABLISHMENTS IN THE AREA DISPOSED OF OR TREATED MATERIAL, OR ARRANGED FOR THE DISPOSAL OR TREATMENT OF MATERIAL AT THE SITE BETWEEN 1958-1976**

For the reasons set forth in the last paragraph of Response No. 4, SCH and HHFI are unable to respond. The Hotels have been unable to locate information or documents responsive to this Question. The owner or operator of each franchised hotel should be contacted to determine if they have responsive information.

**RESPONSE NO. 11 – DID YOUR ESTABLISHMENTS OR ANY OTHER COMPANY OR INDIVIDUAL EVER SPILL OR CAUSE A RELEASE OF ANY CHEMICALS, HAZARDOUS SUBSTANCES, AND/OR HAZARDOUS OR NON-HAZARDOUS WASTE ON ANY PORTION OF THE SITE?**

Upon information and belief, no. The owner or operator of each franchised hotel should be contacted to determine if they have responsive information.

**RESPONSE NO. 12 – IDENTIFY INDIVIDUALS EMPLOYED BY YOUR ESTABLISHMENTS IN THE AREA RESPONSIBLE FOR ARRANGING FOR THE REMOVAL AND DISPOSAL OF WASTES OR FOR PAYMENTS, PAYMENT APPROVALS AND RECORD-KEEPING CONCERNING SAME BETWEEN 1958-1976**

See above Response No. 3. The owner or operator of each franchised hotel should be contacted to determine if they have responsive information.

**RESPONSE NO. 13 – DID YOU OR ANY PERSON OR ENTITY ON YOUR BEHALF EVER CONDUCT ANY ENVIRONMENTAL ASSESSMENTS OR INVESTIGATIONS RELATING TO CONTAMINATION AT THE SITE?**

Upon information and belief, no.

**RESPONSE NO. 14 – DO YOU HAVE ANY INFORMATION ABOUT OTHER PARTIES WHO MAY HAVE INFORMATION WHICH MAY ASSIST THE EPA IN ITS INVESTIGATION OF THE SITE?**

Upon information and belief, no other information, other than the contact information provided above in Response No. 3.

**RESPONSE NO. 15 – REPRESENTATIVES OF YOUR ESTABLISHMENTS**

The representatives for SCH and HHFI are:

Legal Representative – David A. Hom, Esq.

Title: Vice-President and Associate General Counsel – Company-Managed Hotel Operations - Americas

**RESPONSE NO. 16 – DOCUMENT RETENTION POLICY**

To the extent that responsive documents once existed, it is reasonable to assume that most would have been disposed of in the normal course of business. SCH and HHFI further respond as follows:

(a). A copy of the current SCH document retention policy is enclosed. There was no document retention policy in place from 1958 - 1976. The oldest document retention policy we have is from 1981. **(Enclosure 5)**

(b) Upon information and belief, we have no knowledge that documents were ever created relative to the EPA's request. In addition, we have no documentation or evidence substantiating the fact that documents for the period 1958-1976 were ever received or destroyed by the SCH Records Management Department. SCH Records Management made a good faith effort to locate documents for the time period requested and to the best of the Department's knowledge, there are no documents responsive to the request.

(c) See response to 16(b) above.

(d) SCH Records Management has no knowledge as to how its predecessors were structured during the 1958-1976 period, or who the responsible person(s) would be. To the best of the Department's knowledge, the documents could have been located in the development and real estate areas.

# SECURITIES AND EXCHANGE COMMISSION

WASHINGTON, D. C. 20549

## FORM 10-K

### ANNUAL REPORT

Pursuant to Section 13 of the  
Securities Exchange Act of 1934

For the Fiscal Year Ended December 30, 1977.

Commission File No. 1-4804

### HOLIDAY INNS, INC.

(Exact name of registrant as specified in its charter)

Tennessee  
(State of incorporation)

I.R.S. No. 62-0524913  
(I.R.S. Employer Identification No.)

3742 Lamar Avenue  
Memphis, Tennessee 38118  
(Address of principal executive offices)

Registrant's telephone number, including area code: (901) 362-4001

Securities registered pursuant to Section 12(b) of the Act:

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes ☒ No ☐

Indicate the number of shares outstanding of each of the issuer's classes of common stock, as of the close of the period covered by this report.

Common Capital Stock	29,661,040 Shares
Stock Dividend Convertible Special Stock, Series A	688,104 Shares

## ITEM 1. BUSINESS.

Holiday Inns, Inc. and its subsidiaries and licensees constitute the Holiday Inn System, the largest hotel business in the world. As of December 31, 1977, the Holiday Inn System was comprised of approximately 279,000 rooms in 1,700 Holiday Inn facilities located principally throughout the United States and Canada, including 124 inns in 49 countries and territories abroad. As used herein, the "Company" means Holiday Inns, Inc., or Holiday Inns, Inc. and its subsidiaries, as indicated by the context.

The Company owns Trailways, Inc., which together with its subsidiaries operates the second largest intercity bus system in the United States. Another subsidiary, Delta Steamship Lines, Inc. ("Delta"), is a United States flag carrier operating a fleet of cargo ships on international trade routes from the United States Gulf Coast to West Africa, South America and the Caribbean.

The Company also has a substantial business in contract design and sale of furnishings, equipment, and consumable operating supplies to the inns and restaurants of the Holiday Inn System as well as to other hotels, motels, restaurants and institutions.

The Company was incorporated in 1954 under the laws of Tennessee. Its executive offices are located at 3742 Lamar Avenue, Memphis, Tennessee, 38118 (telephone number 901-362-4001).

The Company's fiscal year ends on the Friday nearest to December 31 each year. Fiscal years 1976 and 1977 ended December 31, 1976, and December 30, 1977, respectively.

## BUSINESS

The following table reflects, for the most recent five fiscal years, information with respect to each of the Company's industry segments, together with other income, corporate expense, interest and foreign currency translation (loss) gain. (See Note 14 of Notes to Financial Statements for additional industry segment information.)

## Hotel

### *The Holiday Inn System*

The Holiday Inn System, comprised of both Company and licensee operated inns, is the largest hotel business in the world. At December 31, 1977, there were 1,700 Holiday Inn facilities with a total of 278,957 rooms operated as follows:

	Inns	Rooms
Company Operated—Owned or leased .....	247	48,749
—Under management contracts .....	24	8,035
—Fifty percent owned .....	5	1,752
	<u>276</u>	<u>58,536</u>
Licensee Operated — .....	1,424	220,421
	<u>1,700</u>	<u>278,957</u>

Holiday Inn facilities are located throughout the world, although the heaviest concentrations are in the United States and Canada. Holiday Inn facilities vary in size from 50 rooms to 750 rooms. A preponderant number of inns have 100 to 175 rooms. At December 31, 1977, 25 inns were under construction in the United States and Canada, of which 22 will be licensee operated.

In recent years the Company has placed emphasis on the establishment of the Holiday Inn System outside of the United States and Canada. At December 31, 1977, 124 Holiday Inn facilities were open (of which 92 are licensed) and 24 Holiday Inn facilities were under construction (of which 13 will be licensed and 9 will be operated by the Company under management contracts) in locations outside of the United States and Canada. In addition, the Company has leases or management contracts or has issued firm commitments to potential licensees for 15 planned Holiday Inn facilities in 11 foreign countries including Canada.

The Company reported operating gains in its international operations in 1977 as compared to losses in recent years. (See Note 14 of the Notes to Financial Statements). Operating performance during 1974 and 1975 reflects the accelerated development of 18 Company-operated inns in the European market between 1971 and 1974, generally adverse worldwide economic conditions during 1975, and political strife in Lebanon which closed a Company-leased inn in September, 1975. Increased losses from international locations in 1976 reflect the disposition of marginal properties during the year and a continuation of economic conditions generally more adverse than those prevalent in the United States. Gains in 1977 are attributable to higher levels of occupancy, higher average room rates and operating efficiencies.

The Company's results of operations are impacted by gains and losses from foreign currency translation in accordance with Statement of Financial Accounting Standards No. 8. Most of the Company's exposure to international currency fluctuations is in the form of foreign denominated long term debt. Foreign denominated debt was reduced by 19% to \$31 million during 1977.

Holiday Inn facilities in the United States generally have similar and distinctive features and are identified by a unique sign which makes Holiday Inn facilities readily recognizable to the public. The name "Holiday Inn" and the sign used by the Holiday Inn System are registered as service marks with the United States Patent Office. Most inns are air-conditioned, have 24-hour roomboard service, wall-to-wall carpeting, parking on the premises, free advance reservations, a swimming pool and color television. Each inn contains a restaurant and, when local laws permit, also sells alcoholic beverages.

#### Inns Operated by the Company

For the 1975, 1976 and 1977 fiscal years, room revenues from inns operated by the Company, exclusive of inns managed for others, contributed \$278,688,000 (30%), \$290,032,000 (30%) and \$320,890,000 (31%), respectively, of the revenues of the Company from continuing operations. During the same period food and beverage sales in inns operated by the Company, exclusive of inns managed for others, contributed \$152,283,000 (17%), \$148,220,000 (15%), and \$151,540,000 (15%).

The direct operating costs associated with room revenues for the 1975, 1976 and 1977 fiscal years were \$78,002,000, \$79,480,000 and \$84,544,000, respectively. Similar costs associated with food and beverage sales for the same periods were \$125,819,000, \$121,967,000 and \$123,551,000. Direct operating costs include payroll expense, food, beverage and supply expenses and other costs which are directly related to the operations of the respective departments. It is not practicable to allocate to the departments indirect costs such as selling expense, administrative expense, utilities, maintenance expense, taxes, rents and depreciation.

The following table sets forth certain historical information concerning inns operated by the Company.

Fiscal Year	Number of Inns at Year End	Number of Rooms at Year End	Occupancy Rate (1)	Average Daily Revenue per Occupied Room (1)
1977	305	57,940	70.6%	\$17.63
1976	309	59,898	68.3%	\$18.38
1975	305	59,384	65.4%	\$20.86
1974	289	58,332	68.4%	\$22.17
1973	276	58,536	71.2%	\$24.56

(1) Excludes inns operated by the Company under management contracts.

The Company attributes the decline in occupancy rates during 1974 and 1975 primarily to general economic conditions during the period and to the gasoline shortage that existed during the early months of 1974.

Holiday Inn facilities operated by the Company include inns operated for others under management contracts. The Company's plans for future development include additional emphasis on the management of inns for others. Moreover, the Company has instituted a program to improve asset productivity and marketing effectiveness. In this connection the needs and preferences of local communities, leisure and commercial travelers, and group meeting customers are carefully assessed at each Company-operated inn. Inns which do not meet investment criteria on a continuing basis may be sold from time to time. During the 1975, 1976 and 1977 fiscal years, 17, 23 and 28 inns, respectively, were sold or closed by the Company.

In 1977, the capital expenditures of the Company were \$112,091,000 of which \$73,952,000 related to Company-operated inns. Capital expenditures for Company-operated inns were for refurbishing, additions to existing inns, and the acquisition of six inns from others. The Company financed its 1977 capital expenditures primarily from its cash and internally generated funds. Capital expenditures in 1978 will be financed from cash, borrowed funds and internally generated funds.

Demand for lodging accommodations varies seasonally with increases in occupancy generally occurring during the summer months. While lodging industry volume is dependent in part upon general economic conditions, the demand for accommodations in an individual inn may be affected by local business conditions, changes in travel patterns, highway condition and relocation, and other factors.

#### **Licensing Operations**

The following table sets forth certain information concerning Holiday Inn facilities currently operated by licensees.

<u>As of December 31</u>	<u>Number Of Inns</u>	<u>Number Of Rooms</u>
1973 .....	1,286	188,973
1974 .....	1,379	207,134
1975 .....	1,409	215,585
1976 .....	1,424	219,732
1977 .....	1,424	220,421

Revenues from licensing operations consist of initial license fees and subsequent royalties. For the years 1975, 1976 and 1977, respectively, licensing operations contributed \$27,520,000 (4%), \$34,507,000 (4%) and \$37,933,000 (4%) of the revenues of the Company. Fees required for newly issued or renewed franchise agreements have been increased from time to time. New domestic franchise agreements presently consist of an initial payment of \$5,000 plus \$100 per room (minimum \$20,000), and a royalty of 4% of gross room sales. In addition, all members of the Holiday Inn System are required to pay into separate funds for marketing and reservation services at a rate of 1.8% of gross room sales.

The Company screens all applicants for licenses carefully with emphasis on the character, ability and financial responsibility of the applicant, as well as on the suitability of the proposed location. License agreements establish standards for service and quality of accommodations. The Company trains licensee management personnel, makes periodic inspections of licensee operations and provides detailed operational manuals, training films and instructional aids for licensee personnel. During the initial period of twenty years, most licenses may be terminated in certain circumstances by the licensee or, in the event of the licensee's violation of the agreement, by the Company. Under certain of the older license agreements the licensee has the option after twenty years to renew the license agreement on a year-to-year basis, provided pre-

existing standards of the Holiday Inn System are met. License agreements issued during the past six years do not provide for automatic renewal rights after the twenty-year period. A revised form of license agreement has been adopted for use in 1978 and subsequent years. The Company's policy in determining whether to renew a particular license agreement is in part to evaluate the overall desirability of retaining the licensee's inn within the System. During 1977, the initial twenty-year term expired as to 5 licenses, of which 2 were renewed. Seventeen licenses were renewed in 1977 prior to expiration. The number of licenses with such twenty-year terms that will expire during each of the next three years is 4, 11 and 40. See "Government Regulation" for information on the effect of certain recent legislation on license renewals.

The Company's license agreements and stated operating policies contain certain restrictions on the activities of licensees. Certain provisions of the license agreements and other policies are being challenged in court, and the Company is vigorously defending these actions. (See "Legal Proceedings.")

#### **Holidex® Reservation System**

The Company operates the Holidex® computerized central reservation system, located in Memphis, which is the largest reservation system in the hotel industry. The Holidex® system receives reservation requests entered on terminals at each inn, each reservation office, a number of major corporations and most major domestic airlines. The Holidex® system immediately confirms reservations or indicates accommodations at alternate Holiday Inn facilities, automatically notifying designated Holiday Inn facilities of confirmations. The Company has a program to expand the capabilities and applications of the Holidex® system.

#### **Advertising**

The Company and its licensees contribute to an advertising fund managed by the Company for System advertising programs which make use of a common theme. Multimedia advertising campaigns are developed and directed at promoting the Holiday Inn System both in North America and abroad.

#### **Products**

Gross revenues from the Company's Products Group constituted approximately 13%, 14% and 14%, respectively, of total revenues from operations for the most recent three fiscal years. This group includes three supply divisions, Inn Keepers Supply Company (IKS), Innkare and Dohrmann.

IKS is a major distributor of integrated furnishings and equipment packages to the food, lodging and other institutional markets. The IKS one-stop shopping concept fulfills a customer's needs from the planning, construction and design stage to the installation of furnishings and equipment. Display and sales centers are located in Memphis, Tennessee; Atlanta, Georgia; Los Angeles, California; and Lakeland, Florida. IKS coordinators, designers, decorators and engineers are available at each location except Lakeland to assist customers in visually developing a plan that meets their specific requirements.

Innkare provides non-food consumable supplies and specialty items to hotels, motels, restaurants and other institutional customers. Innkare products are marketed and warehoused through a national network of 50 independent distributors with more than 70 distribution points and a division of the Company on the West Coast.

Dohrmann supplies products and services for institutional markets in 10 western states through 80 sales representatives.

The Products Group also includes a printing division, Holiday Press, which offers a full range of commercial printing services.

During the third quarter of 1975, the Company decided to discontinue its manufacturing operations, including food processing, and all of such operations had been sold by the first quarter of 1977. The Products Group also began phasing out its construction division operations in 1976 and had sold its fixed base aviation operations by early 1978.

## Transportation

Through its subsidiaries, the Company is engaged in the business of bus transportation and related operations, and steamship operations. The bus transportation and bus-related operations of the Company accounted for approximately 23%, 24% and 24%, respectively, of the revenues of the Company for the 1975, 1976 and 1977 fiscal years. The revenues of Delta, excluding payments under its operating-differential subsidy agreement with the United States represented by the Maritime Administration which are treated as a reduction of expenses, accounted for approximately 9%, 8% and 8% of the revenues of the Company for these fiscal years.

### **Bus Transportation Service**

The bus transportation business is conducted primarily by Trailways, Inc. ("Trailways"), a holding and operating company doing business under the trade name of "Trailways." The basic Trailways business is regularly scheduled intercity passenger service, package express service and charter bus service, which accounted for 59%, 21% and 17%, respectively, of the revenues from bus operations in 1977. Through its operating divisions, subsidiaries and affiliates, Trailways operates over 70,000 route miles that extend into most major population centers in the United States. Their routes connect with those of other members of the National Trailways Bus System, an association of independent carriers, which provides inter-connecting service to most areas of the United States not directly served by Trailways.

### **Bus Operating Statistics**

	Fiscal Years				
	1973	1974	1975	1976	1977
Bus Operating Revenues (000) .....	\$168,004	\$195,058	\$204,421	\$226,568	\$240,262
Bus Miles (000) .....	194,693	198,628	196,682	207,678	198,125
Number of Intercity Buses .....	2,283	2,271	2,405	2,312	2,203
Passenger Miles (000) .....	2,627,159	2,871,526	2,675,238	2,727,453	2,856,095
Bus Occupancy (Load Factor) .....	37.1%	39.5%	36.6%	36.4%	40.4%

Increased package express and passenger revenues accounted for the major portion of revenue increases in 1977. Improvement in bus operating statistics for 1976 reflects improved charter and package express operations, the acquisition of Tamiami Trails and rate increases. The 1975 results reflect an increase in revenues primarily due to rate adjustments. Bus miles, passenger miles and the load factor declined in 1975 as a result of general economic conditions. 1974 was adversely affected by an increase in bus traffic as a result of the energy crisis. Revenues for 1973 were adversely affected by a strike experienced by a subsidiary of Trailways.

The intercity bus business is seasonal, in that greater bus occupancy is attained during the summer months and the November-December holiday period. Because of its priority position in the allocation of fuel supplies, Trailways did not curtail or interrupt any bus service during the fuel shortage.

### **Equipment**

Substantially all Trailways' buses are the "Eagle" type, equipped with year-round climate conditioning and are designed to seat up to 46 passengers. These buses were manufactured to Trailways' specifications by Eagle International, Inc. During 1976, Trailways participated in a financial reorganization of Eagle International, Inc. pursuant to which Trailways guaranteed a \$1 million liability of Eagle International, Inc. and has received options to purchase all or portions of the stock of Eagle International, Inc. Trailways believes that these arrangements will permit Eagle International, Inc. to deliver new or remanufactured buses and replacement parts in sufficient quantities to meet its requirements.

### **Bus Facilities and Related Operations**

In most major and secondary cities served by Trailways, the terminals, maintenance and related facilities are owned by the Company. The real estate investments are located in 237 cities in 36 states and the District of Columbia.

### Steamship Operations

Steamship operations are conducted by Delta, one of ten companies operating vessels in foreign commerce under the United States flag with operating-differential subsidy contracts with the United States represented by the Maritime Administration. Under Delta's operating-differential subsidy agreement the United States Government compensates Delta for portions of certain operating expenses in excess of those incurred by its foreign competitors. Delta entered into an agreement to establish a capital construction fund as of January 1, 1976, to replace the statutory reserve fund under a previous operating-differential subsidy agreement. The agreements require Delta to replace its eleven vessels at the end of their economic lives between 1986 and 1998. (See Note 4 of the Notes to Financial Statements.)

Delta services three trade routes determined by the United States Government as essential to the foreign commerce of the United States. Services extend from the Gulf Coast of the United States to the East Coast of South America, the West Coast of Africa and certain foreign ports in the Caribbean and Gulf of Mexico. Delta also calls at all principal Caribbean and Venezuelan ports on a privilege basis. Shipments from the United States to South American and African ports consist mainly of industrial tools, supplies, agricultural products, and finished consumer goods. The principal cargo from South America is coffee and other food commodities, and from Africa is coffee, rubber, lumber and ore.

During 1973, Delta placed in service three new high-productivity Lighter Aboard Ship LASH/container vessels with a cargo capacity of 40,700 dead weight tons each. Capable of transporting almost any type of cargo in containers and lighters (barges), these new vessels represent a significant technological advance in international commerce. Two LASH/container vessels are on regular schedules to South America and have reduced the average length of the typical South American voyage from 84 to 42 days. One LASH/container vessel has been on charter service since mid-1976.

In addition to the LASH/container vessels, Delta also operates a fleet of eight cargo vessels, with average capacity of approximately 10,500 dead weight tons each.

The following table shows the total number of tons of cargo carried and the number of completed voyages by Delta (excluding charter) during each of the past five years:

Year	Tons of Cargo	Completed Voyages		
		West Africa	South America/ Caribbean	Total
1973	701,859	23	22	45
1974	930,439	23	37	60
1975	733,583	28	34	62
1976	727,201	31	20	51
1977	636,852	28	17	45

The decline in the tons of cargo carried in 1975 and 1976 occurred on South American and Caribbean routes as a result of a decreased level of worldwide trade. The decline in the tons of cargo carried in 1977 occurred on South American and Caribbean routes primarily as a result of a decreased level of trade, a 59-day work stoppage at major U.S. ports by the International Longshoremen's Association against container and automated vessels and the fact that a LASH/container vessel was under repair during most of the fourth quarter.

In December, 1977, Delta contracted with another U.S. steamship company, Prudential Lines, Inc. ("Prudential"), to purchase vessels and related equipment to serve trade routes from the U.S. east coast to the Caribbean and the west coast of South America for a total of approximately \$71,500,000. As a part of this contract, a LASH/container vessel was acquired in 1977 for \$22,000,000. Subject to regulatory approval and Prudential's ability to deliver its assets to Delta's satisfaction, the remainder of the contract is to be finalized in 1978. Delta made payments from the capital construction fund of \$1,000,000 in 1977 on the LASH/container vessel and \$9,440,000 to an escrow fund to secure performance under the remainder of the contract. The balance of the purchase price will be financed from the capital construction fund, by the assumption of U.S. Government Insured Merchant Marine Bonds, and incurrence of other debt. In addition, Delta will assume various leases for containers, chassis, office equipment and space.

Upon satisfactory consummation of the transactions referred to in the preceding paragraph, Delta has also agreed to charter six vessels for approximately nine years at the approximate rate of \$5,800,000 annually in connection with the servicing of Prudential's U.S. west coast trade routes to the Caribbean and both coasts of South America.

### Competition

Holiday Inn facilities are, in all cases, in intense competition with other hotels and motels in or near the cities where they are located, including several large chains. Holiday Inn facilities also compete with "thrift" motels which offer basic accommodations at reduced cost. Intense competition also exists with other chains in the sale of hotel licenses. Hotel and motel operators must make continuing expenditures for modernization, refurbishing and maintenance in order to prevent competitive obsolescence. The Company encounters similar competition in its foreign operations. The Products Group supply divisions compete with many companies.

In providing bus transportation service, Trailways is subject to competition not only from other bus companies, but also from other forms of transportation, including airlines, railroads (including AMTRAK, a federally subsidized carrier) and private automobiles. Delta's principal competition in its trade routes is from foreign flag vessels.

### Government Regulation

Trailways is subject to regulation by the Interstate Commerce Commission which has jurisdiction, among other things, over the extension of routes, acquisitions of other motor carriers, fares and the issuance of securities. Trailways is subject to regulations of the Department of Transportation with respect to safety. In intrastate operations, Trailways is subject to regulation by state agencies having jurisdiction, among other things, over routes, fares and safety.

Delta's operations are subject to numerous statutes and regulations including those administered by the United States Maritime Administration.

Thirteen states have passed, and a bill in Congress would enact, legislation which affects the ability of franchisors to terminate franchises, or generally requires franchisors to enter into new contracts with franchisees after the original contract has expired. Fourteen states require full disclosure by franchisors to prospective franchisees, and five states have adopted laws penalizing deceptive and unfair trade practices in franchising. To date the Company's operations have not been materially affected by such legislation; however, the Company cannot predict what effect, if any, such legislation, particularly the enactment of proposed federal legislation, will have on the Company's future operations.

### Employee Relations

At December 31, 1977, the Company had approximately 28,000 employees, excluding employees in the Transportation Group, and labor relations with these employees have been good since the Company's formation.

At December 31, 1977, the Transportation Group had approximately 8,800 employees, and in addition, as many as 1,000 longshoremen are employed on an hourly basis. Employee relations in the Transportation Group have been generally satisfactory. However, there have been several disputes and work stoppages during the past five years, including one lengthy strike at a bus subsidiary from 1972 to 1976 and an 18-day work stoppage at five operating companies in the Southeast during 1976.

## PART I.

### ITEM 1. BUSINESS

Holiday Inns, Inc. and its subsidiaries and licensees constitute the Holiday Inn System, the largest lodging business in the world. As of December 31, 1974, the Holiday Inn System was comprised of approximately 267,000 rooms in 1,688 Holiday Inns located principally throughout the United States and Canada, including 97 inns in 41 countries abroad. As used herein the "Company" means Holiday Inns, Inc., or Holiday Inns, Inc. and its subsidiaries, as indicated by the context.

TCO Industries, Inc., a wholly-owned subsidiary of the Company, owns Continental Trailways, Inc., which together with its subsidiaries operates the second largest interstate bus system in the United States. As used herein "TCO" means TCO Industries, Inc., or TCO Industries, Inc. and its subsidiaries, as indicated by the context. TCO's subsidiary, Delta Steamship Lines, Inc. ("Delta"), is a United States flag carrier operating a fleet of cargo ships.

The Company also has a substantial business in the sale of furnishings, equipment, and consumable operating supplies to the inns and restaurants of the Holiday Inn System as well as to other hotels, motels, restaurants and institutions and owns food processing businesses, furniture and equipment manufacturers and a commercial printing plant.

The Company was incorporated in 1954 under the laws of Tennessee. Its executive offices are located at 3742 Lamar Avenue, Memphis, Tennessee 38118 (telephone number 901-362-4001).

The following table reflects for the five fiscal years ended January 3, 1975, information with respect to each of the Company's lines of business which contributed ten percent or more of revenues or ten percent or more of income before income taxes and extraordinary items, together with other income and general corporate expenses which the Company does not believe it is practicable to allocate.

The foregoing tabulation by lines of business has been reported after elimination of inter-company sales with credit for such transactions applied as a reduction of expenses of the selling unit.

See "Management's Discussion and Analysis of the Summary of Operations" in Item 2 for an analysis of significant changes in revenues and income from the Company's lines of business.

## Food and Lodging

### *The Holiday Inn System*

At December 31, 1974, there were 1,688 Holiday Inn facilities with a total of 267,032 rooms operated as follows:

	Inns	Rooms
Company Operated—Owned in fee .....	135	25,211
—Owned, but located on leased land .....	64	12,836
—Leased from others .....	104	20,024
—Under management contracts .....	5	1,667
—Fifty percent owned .....	1	160
	<u>309</u>	<u>59,898</u>
Licensee Operated — .....	1,379	207,134
	<u>1,688</u>	<u>267,032</u>

Holiday Inn facilities are located throughout the United States and Canada, although the heaviest concentration are in the Eastern half of both countries. Holiday Inn facilities vary in size from 52 rooms to 715 rooms. A preponderant number of inns have 100 to 150 rooms. At December 31, 1974, 45 inns were under construction in the United States and Canada, all but 5 of which will be licensee operated.

The Company is placing emphasis on the establishment of the Holiday Inn System outside of the continental United States and Canada. At December 31, 1974, 97 Holiday Inn facilities were open (of which 71 are licensed) and 33 Holiday Inn facilities were under construction (of which 30 will be licensed) as follows:

#### INNS OPEN:

Antigua	England (11)	Luxembourg	Spain
Aruba	France (6)	Mexico (9)	Swaziland (2)
Australia	Germany (13)	Monaco	Sweden
Austria	Gibraltar	Netherlands (3)	Switzerland (2)
Bahamas (2)	Grand Cayman	Portugal	Taiwan
Barbados	Grenada	Puerto Rico	Trinidad
Belgium (5)	Italy	Rhodesia	Venezuela
Bermuda	Jamaica	Singapore	Virgin Islands (U.S.)
Botswana	Japan	St. Kitts	
Brazil	Lebanon	St. Lucia	
Curacao	Lesotho	South Africa (13)	

#### INNS UNDER CONSTRUCTION:

Antigua	Hong Kong	Malaysia	Portugal (2)
Bolivia	India (3)	Mexico (3)	South Africa
Brazil	Indonesia (11)	Panama	Tahiti
France	Italy	Poland	
Germany	Jordan	Puerto Rico	

In addition, the Company owns, has leases or management contracts, or has issued firm commitments to potential licensees, for planned Holiday Inn facilities in 31 countries. In 1972, by reason of differences with the government of Morocco, the Company ceased operating Holiday Inn facilities at Fez and Marrakesh and constructing Holiday Inn facilities at Casablanca and Tangier, pending the outcome of current arbitration.

Holiday Inn facilities in the United States generally have similar and distinctive features, and

are identified by a unique sign, which makes Holiday Inn facilities readily recognizable to the public. The name "Holiday Inn" and the sign used by the Holiday Inn System are registered as service marks with the United States Patent Office. Most inns are air conditioned, have 24-hour switchboard service and wall-to-wall carpeting and provide restaurant facilities and parking on the premises, free advance reservations, a swimming pool and color television.

#### **Inns Operated by the Company**

For each of the three fiscal years ended January 3, 1975, room revenues and other related income (excluding food and beverage sales) from inns operated by the Company provided 31%, 30% and 29%, respectively, of the revenues of the Company.

The following table sets forth certain historical information concerning inns currently operated by the Company.

<u>Fiscal Year Ended</u>	<u>Number of Inns at Year End</u>	<u>Number of Rooms at Year End</u>	<u>Occupancy Rate (1)</u>	<u>Average Daily Revenue per Occupied Room (1)</u>
January 1, 1971 .....	287	49,109	70.2%	\$15.06
December 31, 1971 .....	290	51,687	68.1%	\$16.34
December 29, 1972 .....	297	54,643	71.7%	\$16.86
December 28, 1973 .....	305	57,940	71.5%	\$17.75
January 3, 1975 .....	309	59,898	68.3%	\$18.37

(1) Occupancy rates and average daily revenue per occupied room are computed on the basis of inns open one year or more, except that additions of rooms to such inns are reflected in the occupancy rates and average daily revenue per occupied room as though such rooms had been open one year or more.

The Company's occupancy rate shown in the above table declined 3.2 points (4.5%) during 1974, compared to 1973, which the Company believes is attributable primarily to the gasoline shortage that existed during the early months of 1974.

Holiday Inn facilities operated by the Company include inns operated for others under management contracts. The Company's plans for future development include additional emphasis on the management of properties for others. In connection with the Company's efforts to improve the productivity of assets, a continuing inn disposition program has been implemented, and nine inns have been sold or closed by the Company in the past year. Three of these inns remain in the Holiday Inn System as licensed properties.

Demand for lodging accommodations varies seasonally. Historically, occupancy increases during the summer months. Lodging industry volume is dependent upon general economic conditions. The demand for accommodations in an individual inn may be affected by local economic conditions, changes in travel patterns, highway condition and relocation, and other factors.

#### **Licensing Operations**

The following table sets forth certain information concerning Holiday Inn facilities currently operated by licensees.

<u>As of December 31</u>	<u>Number Of Inns</u>	<u>Number Of Rooms</u>
1970	984	130,255
1971	1,081	148,777
1972	1,173	166,470
1973	1,286	188,973
1974	1,379	207,134

Revenues from licensing operations consist of initial license fees and subsequent royalties which have been increased from time to time. Licenses are currently sold for an initial fee of \$15,000 plus \$100 per room for each room in excess of 100 rooms, and a continuing royalty of 15¢ per room per day, or 3% of gross room sales, whichever is greater. Licensing operations contributed 3.1%, 3.0% and 2.5% of the revenues of the Company in the three fiscal years ended January 3, 1975, respectively. As a result of economic conditions adversely affecting the start of new motel and hotel projects in 1974, the Company's sales of licenses for new Holiday Inn decreased substantially during the period.

License agreements establish standards for service and quality of accommodations. The Company trains licensee management personnel, makes periodic inspections of licensee operations and provides detailed operational manuals, training films and instructional aids for licensee personnel. Licenses extend for an initial period of twenty years but may be terminated in certain circumstances by the licensee or the Company. The Company screens all applicants for licenses carefully, with emphasis on the character, ability and financial responsibility of the applicant, as well as on the suitability of the proposed location.

Several states have passed, and the Federal and other state governments are considering, legislation and regulation concerning the sales of franchises and the relationships with franchisees. The Company believes it is impossible to predict what effect, if any, such legislation or regulation will have on its operations.

The Company's license agreements and stated operating policies contain certain restrictions on the activities of licensees which the Company considers to be important in maintaining the integrity and standards of the Holiday Inn System. A provision in the Company's license agreements has been held illegal, and is currently being appealed by the Company. Certain other policies and practices are being challenged in court, and the Company is vigorously contesting these. (See "Item 5. Legal Proceedings.")

#### ***Reservations and Advertising***

The license agreements contain provisions for joint advertising and referral services. The Holidex® computerized central reservation system, located in Memphis, receives reservation requests entered on terminals at each inn, each Reservation Office and a number of major corporations which have volume travel requirements. The Holidex® system immediately confirms reservations or indicates accommodations at alternate Holiday Inn facilities, automatically notifying designated Holiday Inn facilities of confirmations. At December 31, 1974, the Holiday Inn System had 7 Reservation Offices serving 60 principal cities in the United States, Canada and Mexico and Reservation Offices in 8 principal cities abroad. All members of the Holiday Inn System are required to pay into a separate fund, for advertising, reservation offices and personnel training.

#### ***Restaurants***

Food and beverage sales in inns operated by the Company and in restaurants located primarily in Continental Trailways' bus terminals contributed \$149,606,000 (19%), \$168,913,000 (19%) and \$185,129,000 (19%), respectively, of the Company's revenues during each of the three fiscal years ended January 3, 1975. Direct costs applicable to such revenues were \$118,511,000, \$137,965,000 and \$143,763,000, respectively. Each Holiday Inn facility in the Holiday Inn System has a restaurant and, when local laws permit, also sells alcoholic beverages. The Company operates restaurants in Continental Trailways' bus terminals at 48 locations in 20 states and the District of Columbia.

#### ***Holiday Inn Trav-L-Park***

In 1970, the Company started a system of recreational vehicle parks providing camper rental spaces under the name "Holiday Inn Trav-L-Park". At December 31, 1974, there were 49 parks (one of which is owned by the Company) with 10,914 rental spaces in operation in 19 states. In addition, there was one park under construction and 12 planned (one of which is in Canada). Licenses are currently sold for an initial fee of \$7,500 and a continuing royalty of \$500 per year, or 5% of gross rental space revenue, whichever is greater.

#### ***Products***

Revenues from the Company's supply and manufacturing operations constituted 20%, 22% and 21%, respectively, of total revenues for the three fiscal years ended January 3, 1975. These divisions sell room furnishings and equipment, restaurant furnishings and food handling equipment, office furniture and equipment including telephone switchboard equipment, consumable operating supplies, processed meats and other food products. The Company also operates a commercial press for institutional printing and maintains a construction division which is pri-

erates  
is pri-

marily engaged in the construction of low-rise Holiday Inn for the Company and licensees in the southern United States.

The Company's institutional merchandising centers, the Institutional Marts of America, provide centralized display areas for substantially all of the equipment, furnishings, supplies and services necessary in the development and operation of an institutional project.

### Travel and Transportation

Through its subsidiaries, TCO is engaged in the business of bus transportation and related operations, and steamship operations. The bus transportation and bus related operations of TCO accounted for 21%, 20% and 21%, respectively, of the revenues of the Company for its three fiscal years ended January 3, 1975. The gross revenues of Delta, excluding payments under its operating-differential agreement which are treated as a reduction of expense, accounted for approximately 4%, 4% and 8% of the revenues of the Company for the three fiscal years ended January 3, 1975, respectively.

#### Bus Transportation Service

The bus transportation business is conducted primarily by Continental Trailways, Inc. ("Continental Trailways"), a holding and operating company doing business under the trade name of "Continental Trailways". The basic Continental Trailways business is regularly scheduled intercity passenger service, package express service and charter bus service. Through its operating divisions, subsidiaries and affiliates, Continental Trailways operates over 66,400 route miles that extend into most major population centers in the United States. Their routes connect with those of other members of the National Trailways Bus System, an association of independent carriers which provides inter-connecting service into most areas of the United States not directly served by Continental Trailways.

#### Bus Operating Statistics

	Years Ended December 31,				
	1970	1971	1972	1973	1974
Bus Revenues (000)	150,551	162,776	148,618	163,107	189,385
Bus Miles (000)	204,732	204,830	190,247	194,693	198,628
Number of Intercity Buses	2,338	2,316	2,265	2,283	2,271
Passenger Miles (000)	2,845,735	2,899,065	2,486,545	2,627,159	2,871,526
Bus Occupancy (Load Factor)	39.8%	39.2%	36.0%	37.1%	39.5%

The intercity bus business is seasonal, in that greater bus occupancy is attained during July and August and the November-December holiday period. Operations in 1972, 1973 and 1974 were adversely affected by a strike experienced by Safeway Trails, Inc., a wholly-owned subsidiary of Continental Trailways. Despite the continuation of the strike, which principally affected service in the area between New York City and Washington, D.C., Safeway Trails, Inc. resumed scheduled service in 1974 over substantially all of its routes with sufficient service to meet traffic demands. Revenues of this subsidiary were \$20,572,000, \$4,946,000, \$8,331,000 and \$14,053,000, respectively, for the four years ended December 31, 1974. There were also indeterminate effects on revenues of connecting lines.

#### Equipment

Approximately 2,300 buses are now owned and operated by Continental Trailways. Substantially all buses are the "Eagle" type equipped with a year-round climate conditioning and are designed to seat up to 46 passengers. These buses are manufactured to Continental Trailways' specifications by Overseas Inns, S.A.

M. E. Moore, formerly a director of the Company and TCO Industries, Inc., is a director of Overseas Inns, S.A. ("Overseas"), and owns, together with his associates, approximately 18.3% of Overseas Inns, S.A. capital stock. Prior to 1974, TCO purchased buses and purchased and sold bus parts from and to Overseas under the terms of a Distributor Agreement expiring in 1978. On March 4 and December 31, 1974, the parties amended the aforesaid agreement and entered into a separate agreement, which are to expire on December 31, 1979. Under these agreements, TCO sold, at its cost, all of the bus parts manufactured by Overseas and in TCO's inventory in or en route to Alexandria, Louisiana, on February 1, 1974, to Overseas. TCO has the right to purchase, from Overseas, foreign bus parts and bus parts manufactured by Overseas at a 6% discount from the list sales price. TCO

may purchase on an annual basis bus parts manufactured or assembled in the United States and Canada by persons other than General Motors or Overseas or their respective affiliates from Overseas at its cost plus the greater of 1½ % of cost or \$15,000. During the year ended December 31, 1974, TCO purchased 243 buses from Overseas for an aggregate price of approximately \$13,287,000, of which 57 were resold to others. During the same period, TCO purchased bus parts from Overseas for approximately \$174,000, a portion of which were resold to others, and TCO sold to Overseas approximately \$1,747,000 (which was TCO's cost plus 1½ %) other parts which were used by Overseas in assembling buses. TCO has agreed to purchase, in 1975, 312 buses and up to an additional 50 buses if they are manufactured and not sold to others, which, at TCO's option, can be credited to the following years' minimum purchase requirements. The agreement provides that from January 1, 1976, to December 31, 1979, TCO will purchase from Overseas 225, and may purchase up to 325, buses per-year. The purchase price of the buses is 95% of the list sales price or lower competitive prices if such exist. These buses are manufactured to TCO's specifications and to the knowledge of its management are not manufactured by others; however, management believes the prices paid for buses are competitive with prices that would be charged by others.

### **Regulation**

Continental Trailways is subject to regulation by the Interstate Commerce Commission, which has jurisdiction, among other things, over the extension of routes, acquisitions of other motor carriers, fares, and the issuance of securities. Continental Trailways is subject to regulations of the Department of Transportation with respect to safety. In intrastate operations, Continental Trailways is subject to regulation by state agencies having jurisdiction, among other things, over routes, fares and safety.

TCO, as a non-carrier in control of a motor carrier, is subject to limited jurisdiction of the Interstate Commerce Commission.

### **Bus Related Operations**

Continental Trailways Tours, Inc., a TCO subsidiary ("Tours") provides a complete package tour service. Package tours consist of bus, air and steamship transportation, food, lodging, and sight-seeing for groups or individuals. Tours has 61 sales offices, primarily in bus terminals. A significant part of tour sales originates through independent travel agencies and individual tour organizers for whom Tours acts as wholesaler.

TCO's subsidiary, Four States Realty Co., Inc. and other subsidiaries and related corporations ("Four States") have substantial real estate investments located in 209 cities in 37 states and the District of Columbia. In most major and secondary cities served by Continental Trailways, Four States owns the terminals and related facilities.

Through subsidiaries, TCO is in the excess and surplus line insurance business, writes life insurance policies on its employees, and sells accident insurance across the ticket counters in Continental Trailways terminals.

### **Steamship Operations**

Steamship operations are conducted by Delta, one of ten companies operating vessels in foreign commerce under the United States flag, with operating-differential contracts with the United States represented by the Maritime Administration. Under Delta's operating-differential agreement, the United States Government undertakes to compensate it for portions of certain excess operating expenses over those incurred by its foreign competitors. (See Note 7 of the "Notes to Financial Statements.")

Delta services three trade-routes determined by the United States Government as essential to the foreign commerce of the United States. Services extend from the Gulf Coast of the United States to the East Coast of South America, the West Coast of Africa and certain foreign ports in the Caribbean and Gulf of Mexico. During 1971, Delta extended its services to include all principal Caribbean and Venezuelan ports on a privilege basis. Shipments from the United States to South American and African ports consist mainly of industrial tools, supplies, agricultural

r lower  
d to the  
aves the

products, and finished consumer goods. The principal cargo from South America is coffee and other food commodities, and from Africa is coffee, rubber, lumber and ore.

During 1973, Delta placed in service three new high-productivity Lighter Aboard Ship (LASH)/container vessels with a cargo capacity of 40,700 dead weight tons each. Capable of transporting almost any type of cargo in containers and lighters (barges), these new vessels represent a significant technological advance in international commerce. The new LASH/container vessels are now on regular schedules to South America and have reduced the average length of the typical South American voyage from eighty-four to forty-two days.

In addition to the LASH/container vessels, Delta also operates a fleet of eight cargo vessels, with average capacity of approximately 10,500 dead weight tons each. The introduction of the LASH/container vessel has allowed Delta to redeploy this fleet to meet the growing demand for service on the West African and South American/Caribbean trade routes.

The following table shows the total number of tons of cargo carried and the number of completed voyages by Delta during each of the past five years:

	Year	Tons of Cargo	Completed Voyages*		
			West Africa	South American/ Caribbean	Total
mission,	1970 .....	584,340	18	30	48
if other	1971 .....	661,046	31	27	58
regula-	1972 .....	483,364	19	21	40
s, Con-	1973 .....	701,859	23	22	45
g other	1974 .....	930,439	23	37	60

of the

\*The figures shown for completed voyages exclude 11 voyages completed during 1970 by vessels under charter to the Military Sealift Command. The decrease in the number of voyages in 1972 resulted from the sale of four older ships in the early part of the year as part of Delta's fleet modernization program.

### Competition

e pack-  
l, lodg-  
us ter-  
es and

Holiday Inn facilities are, in all cases, in intense competition with hotels and other motels in or near the cities where they are located. The number of available motel rooms has increased greatly in recent years and several large chains are active in the motel industry. Holiday Inn facilities also compete with an expanding number of "thrifty" motels which offer basic accommodations at reduced cost. Intense competition also exists with other chains in the sale of motel licenses. Hotel and motel operators must make continuing expenditures for updating, refurbishing and maintenance in order to prevent competitive obsolescence. The Company encounters similar competition in its existing and proposed foreign operations.

orpora-  
7 states  
l Trail-

The supply and manufacturing operations compete with many companies. Some of the manufacturing competitors have substantially greater resources.

ites life  
sters in

In providing bus transportation service, Continental Trailways is subject to competition not only from other bus companies, but also from other forms of transportation, including airlines, railroads, and private automobiles. Delta's principal competition in its trade routes is from foreign flag vessels.

### Employee Relations

At December 31, 1974, the Company had approximately 33,300 employees, excluding employees in the Travel and Transportation Group, and labor relations with these employees have been very good since the Company's formation. When the Company engages in construction work, it hires such employees as may be necessary for the project.

ssential  
United  
n ports  
ude all  
States  
ultural

At December 31, 1974, the Travel and Transportation Group had approximately 9,800 employees, and, in addition, as many as 1,000 longshoremen are employed on an hourly basis. Employee relations in the Travel and Transportation Group have been generally satisfactory. However, there were disputes and work stoppages in 1971, 1972 and 1973, and one of the bus subsidiaries experienced a lengthy strike in 1969 and another one which commenced April 2, 1972, and is continuing.

# PASSPORT

October 1, 1971—January 31, 1972

**NOTICE:** This edition of Holiday Inn Passport/Directory was being printed at the time of the announcement of the price freeze effective August 15, 1971. In those few instances where increases in room rates are printed in this Passport, such increases have been rescinded and the pre-August 15 rates remain in effect. Seasonal and special events rates will be no higher than rates for comparable periods or events last year.

★ OPEN  
● UNDER CONSTRUCTION  
OR PLANNED

From Coast to Coast it's the fine old innkeeping tradition in a modern setting. With Holiday Inns in 20 states traveling Americans can be assured of first class service and accommodations at reasonable rates. Look for the sign of the "Nation's Innkeeper," and travel the Holiday Inn route.

*Free Teletype Reservation Service*

**Holiday Inn®**

To assure yourself and the family of reservations ahead, just ask the Innkeeper or clerk to wire the next Inn. No fuss, no worries about accommodations.

**RECORDS RETENTION  
COMMITTEE**

Global Information  
Management

Records Management  
Disposition Schedule

Electronic

Optical Data Technology

Paper Records

**BASS HOTELS & RESORTS <sup>sm</sup>**  
**RECORDS & INFORMATION MANAGEMENT POLICY**

**STATEMENT OF PURPOSE**

As a company, it is in our best interest to manage recorded information (paperbased and electronic) as an asset in order to satisfy operational, regulatory and legal requirements.

**POLICY**

It is the policy of Bass Hotels & Resorts to manage records and information in accordance with sound business and legal practices. As such, a Records and Information Management program will be maintained for managing and coordinating records related activities, and services.

The retention and disposition of company records is managed by the Corporate Records and Information Department in conjunction with the Records Retention Committee. The Committee consists of senior management representatives who are responsible for reviewing and approving subsequent updates to records retention guidelines. As a result, Bass Hotels & Resorts adheres to a company approved Records Retention and Disposition Schedule.

Through this effort, it is the responsibility of Corporate Records and Information to assure that company records are managed and purged in the normal course of business under an approved company-wide Records Retention and Disposition Program.

Thomas R. Oliver  
Chairman & Chief Executive Officer

## Notice

*The Records Retention and Disposition Schedule for Bass Hotels & Resorts* contains information covered by the attorney-client privilege and work product doctrines and nothing contained herein waives the right of Bass Hotels & Resorts to assert the attorney-client privilege or work product doctrine as to the documents referred to herein.

## Records Listing with Retention Periods

### Overview

The Records Listing with Retention Periods consists of primary records reviewed from each functional area.

### Description

The Records Listing with Retention Periods consists of the following fields of information:

- **Functional Area:** This is the name of the functional area in which the records were inventoried. This information appears in the upper left-hand corner of the report.
- **Records Series:** A listing of the records series.
- **Retention Group:** This is a seven-digit alpha-numeric code assigned to the group for ease of identification and sorting. A record code was assigned to every record in the records inventory.
- **Legal Group:** This is the six-digit alpha-numeric code previously developed for the Legal Group File. A legal group code is assigned to each record code and determines the legal retention period.
- **Retention of Official Records - Legal:** The legal retention related to the legal group code of the Legal Group File.
- **Retention of the Official Records - User:** The period of time a typical user needs the record. This is a subjective value determined by a review of the inventory forms and previous experience.
- **Retention of Official Records - Total:** The total retention period for keeping official company records.

### NOTE:

Records Series in bold are considered to be of high or medium value to BHR as determined by Tax, and Legal representatives. (H) = High (M) = Medium

## Abbreviations

The following abbreviations are used in the Records Retention Listing:

- **ACT:** Active; while the matter is active. For example, while the contract is active or while an employee is still working for company.
- **CY:** Current year; all records created in the same year are treated as though they were created on December 31 of that year.
- **IND:** Indefinite; a long period of time for retaining records that could not be determined in advance. Every few years these records should be reviewed to determine when they can safely be destroyed.
- **LC:** Life of Corporation; keep records while the corporation continues to exist.
- **SUP:** Superseded; keep the records until they are replaced by more current ones.
- **+**: Plus; some retention periods consist of two or more components. For example, records of capital acquisitions should be retained while they are active plus six years (ACT + 6).
